PROFESSIONAL SUMMARY

Design Engineer at the intersection of design systems and applied AI. Led Brandkit Design System at Airtable (atomic design, **5x** dev-time reduction) and own AI-first web architecture at Freshworks. Build Claude-powered tooling with **MCP integrations** (pouk.ai – agents, RAG, evals) and shipped **AI Mode**, a 2026 Webby "Best Use of AI" Honoree. Deep React / TypeScript / Next.js + headless CMS, web animation, Core Web Vitals, and end-to-end **localization** (i18n/I10n from Apple QA through production). Bilingual (EN/ES).

CORE COMPETENCIES

Design Systems Architecture

Next.js / React / TypeScript

Headless CMS

Claude / MCP Tooling

Web Animation

Localization (i18n / I10n)

Core Web Vitals

Agentic Systems (RAG, evals)

WORK EXPERIENCE

Freshworks

Sep 2025 – Present

Staff Engineer, Web Operations – Dallas, TX (Remote)

- Built **AI Mode** – AI-powered Web Assistant with direct LLM integration. **2026 Webby Awards Honoree**, "Best Use of AI" (Features Design)
- Own architecture of scalable, AI-first web systems on Next.js; partner with platform and security teams
- Lead Core Web Vitals performance and accessibility best practices on content-heavy surfaces

Airtable

Oct 2023 – May 2025

Senior Front-End Engineer – Dallas, TX (Remote) / Mountain View, CA

- Design System Lead** – owned Brandkit DS architecture (atomic design, governance), **5x reduction** in development time
- Next.js on Headless CMS – content modeling and reusable web surfaces

Cabify

Oct 2019 – Oct 2021

Software Engineer II → III – Madrid, Spain

- Shipped multi-locale web experiences across European markets; drove compliance and security across platforms
- Built high-performing web experiences for urban mobility; cross-functional delivery across international teams

Walmart Labs

May 2018 – Mar 2019

Front End Engineer – Sunnyvale, CA

- Optimized Cart and Checkout for performance and scalability at e-commerce scale

Apple

Apr 2017 – May 2018

QA & Localization – Cupertino, CA

- Localization / internationalization (i18n/I10n) across languages and locales – translation accuracy, functionality, flow
- Cross-department collaboration with marketing and engineering; international SCRUM

PROJECTS

pouk.ai Live

Claude-powered tooling: multi-agent orchestration, tool-using agents, MCP servers, and RAG pipelines.
Claude · LangGraph · Claude Agent SDK · MCP · Python/TS · pouk.ai

AI Mode (Freshworks) Webby Honoree

AI-powered Web Assistant; 2026 Webby "Best Use of AI" Honoree.
React · TypeScript · direct LLM integration

Brandkit Design System (Airtable)

Atomic design system; component API, governance, contribution model – 5x dev-time reduction.
React · TypeScript · Design Systems

AI Expert

Personal, visual, daily AI-learning web app: one lesson/day from zero to expert, hands-on Python, live AI-news feed.
Python (FastAPI) · HTML · CSS · JavaScript

swe-newsletter

Daily software-engineering newsletter bot: tracks topics and state for automated email delivery via Claude Code.
Shell · Claude Code · Resend API · GitHub API

EDUCATION

SEO: Practical Marketing with Google – Stanford University

2017

Continuing Studies Specialization · Grade: A+

CERTIFICATIONS

Anthropic Claude Certified Architect, Foundations – Anthropic (Claude API, agent design, prompt engineering, production deployment) 2026 (in progress)

SKILLS

Design & Frontend: Design Systems architecture, React.js, TypeScript, Next.js, Framer, Web Animation, Headless CMS, Core Web Vitals, HTML, CSS

AI / LLM Engineering: Claude-powered tooling, MCP servers, multi-agent orchestration, RAG pipelines, eval loops, prompt engineering (Claude, LangGraph, Claude Agent SDK, Python)

Localization: Internationalization & localization (i18n/l10n) from QA through production; bilingual EN/ES, multi-market EU delivery

Languages: Spanish (Native), English (Full Professional)
